User Guide

## What is Skoot?

Skoot is a GPS navigation unit that helps you get from A to B using the latest maps and navigation technology. With Skoot you can search thousands of points of interest and get access to exclusive offers. Use these discounted offers to find and book the best things to do, eat, and drink as well as the best places to stay. Want to stay connected while you're travelling? Purchase a Skoot data package and connect multiple devices to the Wifi hotspot.

## Features

### Audio Tour Guide

Preloaded with an audio tour guide that gives interesting facts and information as you travel

### Road Safety

Skoot is inbuilt with a road safety feature that keeps you up to date with notifications and traffic warnings
